

TEHNO**PLAST**

Design in function of safety

WE OPERATE IN MORE THAN 40 COUNTRIES WORLDWIDE.

Our extensive experience and a team dedicated to excellence enable us to approach every project with complete attention, resolve challenges quickly, and provide reliable solutions. This commitment defines our work and results.

Building on tradition. Driven by innovation.

Since 1968, our company has combined decades of experience with modern technology to deliver high-quality plastic products. Operating across 12,000 m² of production, business, and warehouse space, we offer complete product design, injection molding, and a modern tool shop for tool production. This integrated setup allows us to efficiently maintain production of existing product lines while quickly developing new plastic products — primarily empty enclosures for low-voltage switchgear and control gear assemblies.

Quality, safety, and responsible business practices are guaranteed through certified systems (ISO 9001, ISO 14001, OHSAS 18001, and BSCI) and rigorous testing by respected institutions, including SIQ, ÖVE, AD Kvalitet Niš, and the Nikola Tesla Institute. By balancing price, performance, and design, we create products that stand out as trusted, reliable, and ahead of the competition.

GOOD ENERGY
since 1968

Enclosures IP40 surface mounting

A spacious enclosure for 12+2 modules per row.

There is plenty of space for cable routing, below and beside DIN rails.

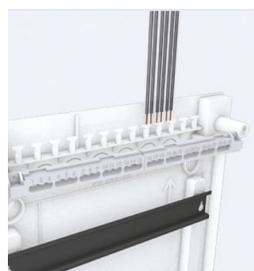

A door can be positioned on either the left side or the right side.

When using installed equipment, you can use an enclosure without a door that has an IP40 protection rating.

Sealable option.

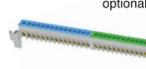

Cables can be secured together using cable ties.

Enclosures come fully assembled with all necessary parts, including:

- DIN rail
- Insulated terminals, neutral and ground
- Blank space cover
- Installation accessories
- Assembly instruction

* Additional terminal upon request

Enclosures IP65

surface mounting

Adjustable DIN rail holder allows installation of all modular devices, regardless of enclosure depth.

Secure.
Optional metal key lock available.

Pre-marked dimensions make installation quick and easy.

Easily change the door position to the left or right side.

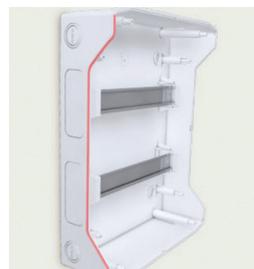

IP65 protective caps.

Rubber cable glands enable fast and safe cable installation, reducing installation time by 50%. They are also more cost-effective than standard plastic cable glands.

Protection against electricity theft through sealing.

The curved design allows for easy cable access and effortless installation.

Enclosures come fully assembled with all necessary parts, including:

- DIN rail
- Insulated terminals, neutral and ground
- Blank space cover
- Installation accessories
- Assembly instruction

* Additional terminal upon request

Enclosures IP40

surface mounting

The door comes in either transparent MABS or white ABS, offering both flexibility and durability.

Metal key lock option, easily utilized by taking off the plastic cap from the door.

Quick and simple attachment of the front mask to the base using quarterturn plastic screws, designed for surface-mounted enclosures.

Plastic holders keep insulated terminals in place.

The insulated terminal in the enclosure is made of self-extinguishing material, tested at 960 °C, and stable up to 120 °C.

Fully assembled with all necessary components and installation accessories (screws, protective caps for screws, MCB labels) and assembly instructions.

Enclosures come fully assembled with all necessary parts, including:

- DIN rail
- Insulated terminals, neutral and ground
- Blank space cover
- Installation accessories
- Assembly instruction

BUSBARS TECHNICAL DATA

Description	Busbar
Type	1 / 3 – phase

TECHNICAL DATA

Busbar	Copper
Insulation	ABS
End cover	FRPS

GENERAL DATA

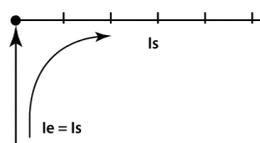

Heat deflection temperature	ABS ≥ 80 °C UL94 V0
Glow Wire Flammability Index	ABS 960 °C / 3,2 mm
Standards	EN 60947-1:2007 / IEC 60947-1:2007
Impulse voltage strength	$\geq 4,5$ kV
Minimal air distance	$> 5,5$ mm
Maximal operating voltage	690 V AC / DC
Protection class	IP20
Short circuit rating	ICC 25 kA - NH3 355 A gG 500 V JM
Dielectric strength	> 32 kV / mm
Max. current and Phase	63 A, 80 A
Product size mm ²	10 mm ² , 16 mm ²

ASSEMBLY DETAILS

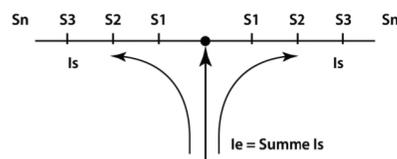

Due to security purposes all shortened bus bars need to be covered with suitable end covers

FEEDING

Feeding at beginning or end of bar

In case of center-feeding, the sum of junction currents S1...Sn per rail branch may not be bigger than the maximal busbar current

APPROVAL AND MARKING

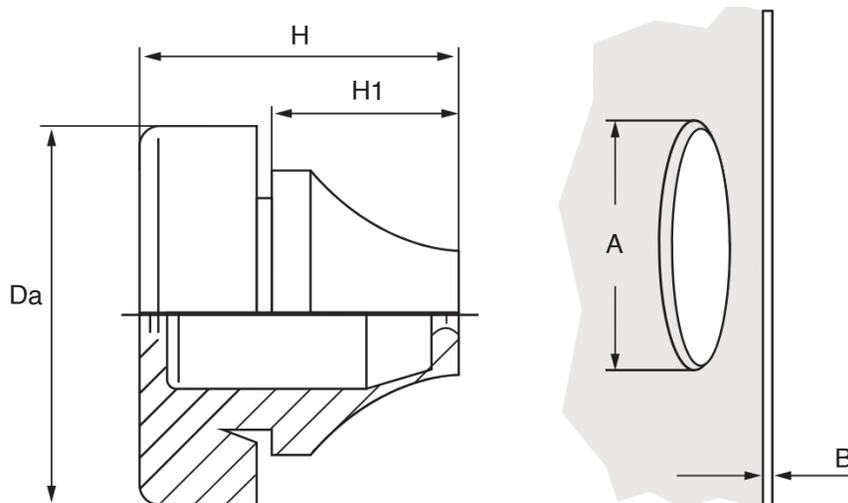

Products are CE and ROHS conform

RUBBER GLANDS

Material	EPDM
Color	RAL 7001
Made of protection	IP67 acc. to EN60529
Temperature range	- 40 °C + 110 °C (Unstressed material)
Test standard	EN IEC 60670- 1 : 2021 +A11, SE- S- 2600072
Semko report	2501605STO- 001

Suitable for holes in materials of 0,5 - 4 mm thickness. Quick and simple assembly without the use of tools.

ÖVE-CERTIFICATE

including the entitlement to use the Austrian Safety Mark

Certificate No.: **47572-008-03** Valid from: 2024 06 21 until: 2026 06 21

The Austrian Electrotechnical Association (ÖVE) hereby grants the right to the company mentioned below to label the listed products with the Austrian Safety Mark.

Certificate holder: **TEHNOPLAST D.O.O.**
 Zdravka Jekića 119 22305 Stari Banovci Serbia

Product: **Empty enclosures for low voltage switchgear and controlgear assemblies**

The products submitted by the applicant were type tested in accordance with the requirements of the technical standards and specifications listed in this certificate. ÖVE certifies the conformity of the listed products and those products manufactured strictly identical to the submitted ones (EN ISO/IEC 17067, Conformity Assessment Scheme Type 5).

The manufacturing process and the products are subject to ongoing surveillance based on harmonized European procedures. This certificate has been issued under the presumption and conditional on the fact that the certificate holder holds all necessary legal rights with regard to the product, presented for the testing and certification.
 Results of testing are shown in file No(s): **TGM-VA EE 39571**
